

EnviroGard

LX850 27HP PROPANE ENGINE

**WE HELP OEMs
LOWER EMISSIONS,
REDUCE
MAINTENANCE,
LOWER FUEL COST
GO GREEN!**

EnviroGard engines are powered by clean burning propane gas and achieve ultra low emissions without sacrificing power or performance. Each engine carries a full manufacturers warranty and is individually dyno tested to ensure performance and emissions meet our Environmental Protection Agency and the California Air Resources Board certifications. EnviroGard propane engines are available with all necessary components to convert a gasoline application to operate on propane.

EnviroGard engines feature:

- Cleanest Emissions In Class
- 9 to 35hp Vertical & Horizontal Shaft
- Full 3 Year Manufacturers Warranty
- EPA & CARB Certified
- Product Design Support
- SAM Carbon Monoxide Shutdown (optional)
